
Judiciary Information Management System (JIMS)

The official case management system for the Judiciary of Hawai'i.

The Hawai'i State Court System

The Hawai'i State Court System is managed by JIMS.

JIMS Application Suite Overview

Criminal Case Flow: The Journey of a Case

Case Study: Kamlesh

Criminal Case Initiation

Complaint Filed

Court staff receive
complaint or citation

Create Case

Staff use 'Create
Case' function in
JIMS

Enter Details

Basic case info,
defendant
(Kamlesh), charges

Automatic Plaintiff

System lists 'State'
as plaintiff

Case Initiated

Official start of the
case in JIMS

Hawai'i Court Types and Case Classifications

Navigating Case Details

JIMS uses a tabbed interface to organize comprehensive case data

Dockets & Notes

Legal documents, filings, and internal records

Violation & Events

Offense details and scheduled court dates

Summary & Parties

Key details and involved individuals

Case Inquiry & Maintenance Functions

Function	Description
 Search	Retrieve cases by name, ID, or other identifiers.
 Maintenance	Update charges, attorneys, and hearing schedules.
 On-Demand Printing (ODP)	Generate preformatted summons and orders.
 Compliance	Review reports to ensure legal deadlines are met.

Unveiling the JIMS Portal

Calendaring & Court Events

Calendaring systematically plans all court events.

Calendar generation provides daily schedules categorized by courtroom and division, while official records include printed PDF calendars for judges and legal counsel.

Balancing Warrant Management in JIMS

Enhancing Security with JIMS User Administration

Security

Maintains the integrity of confidential judicial records

E-Filing Profiles

Managed access for attorneys and prosecutors

In-Camera Access

Judges grant specific staff permission for sensitive documents

JEFS: Electronic Filing & Service System

External Access

Documents flow directly into JIMS for processing.

Attorney Access

Manage cases and submit documents

Public Access

View non-confidential documents and pay fees

eReminder: Automated Hearing Notifications

Public Service

Reminders are delivered via SMS (Twilio) and Email at 6 AM daily. The system supports both Internal staff-managed and External self-registration portals.

How to leverage automation and reporting in JIMS for efficiency?

eCourt Kokua Access Tiers

Access Type	Internal	External	Kiosk	Subscriptions
Description	Full access for staff, including Judge's Exhibits.	Public search for non-confidential case details.	Self-service access at courthouses.	Automated updates for registered legal professionals.

Tracking Items

Search Warrants

Signed by judges for law enforcement investigations.

Arrest Warrants

Issued for missed hearings or administrative needs.

Operations

Staff can create, search, and verify past warrants efficiently.

Adoption Case Management

Classify Adoption Case

Managed under Family Court with 'Adoption' classification.

Restrict Confidentiality

Automatically restricted to protect party privacy.

Control User Access

Only authorized users can view or search adoption records.

Person & Business Maintenance

Data Integrity

Data Entry includes recording names, DOB, addresses, and identifiers.

Charge Code Maintenance

Assignment

Codes assigned based on the nature of the violation.

Classification

Categorized as misdemeanors, felonies, or traffic offenses.

Updates

Staff can modify or drop charges as the case proceeds.

Default Judgment (DJ) Processing Workflow

System Interfaces & Batch Jobs

Batch jobs automate critical system background tasks.

JIMS/JEFS Payment Processing Workflow

Processing Court Payments
